6) A copy of the Comptroller's letter dated 5/15-9-42 - with the enclosure in original - will be sent to the Mil Comr, Bangalore for remarks

Further, the budgeting position will be upset, as the Mcl have since sanctioned the dearness allowance to their employees in accordance with the scale at which it is allowed to the Govt employees. An enquiry will be made as to what this amount to for the current year & how it would be met & put up draft letter - according] advice -

for 29/10/42

C As modified by the ML Govt for the

Receipts - 29,77,278

Expenditure 29,54,104

Closing balance 23,674 (A little above the prescribed minimum of Rs 20,000)

2) After the Committee's opinion was received, the further opinion of the ML Govt was called for thereon. All these opinions have been incorporated in the Statement which is prepared to submit for orders after orders are passed on each of the items, a copy of which will be sent up

3) In order to balance the budget, the figures have been, as usual, inflated in the receipts side for example they have taken credit for two items viz a loan of 4 lakhs for finishing the 4th quota of the cost of the drainage scheme in progress in the city and Rs 5 lakhs a loan for the Jayanagar extensions These schemes have not yet become ripe - neither has sanction of Govt been obtained to them as yet they are deleted

4) further, the receipts side includes a provision of Rs 60000 on account of water supply from the Govt for which no sanction, has been received. Similarly a provision of Rs 30000 made on the expenditure side for meeting the cost of increasing the pressure in the mains to 60 lbs calling has been deleted, as Govt did not sanction the proposal

Bangalore city — Mpl Board Estimates

Continuation Sheet — Mpl File No / Current No — Estimates — Page 5

1) Under sale of Lands, the Mcl have estimated the receipts at Rs 3 lakhs, which they cannot realize. If they had taken the layout certain extensions they would have been in a better position

11) Provision has been made for the payment of interest & sinking fund charges on the loan of twenty lakhs of rupees

17) A sum of Rs 2,27,065/- was advanced only towards the purchase of meters & layout charges of extensions It has to be recouped to normal funds of the Mcl This was started not in the last years Budget but no provision has been made towards this item

18) Consequent on the reductions effected on the receipts side, the items provisions made under the expn side is reduced under several heads due to want of proper sanctions for what the Mcl has to meet dearness allowance — an unexpected item of expn to the extent of Rs 90000/- during the current year The Mcl requested the Govt to meet half the cost This has been declined by the Govt

19) The following provisions which however involve small amounts have in the nature of a nation building activity are allowed —

1) Physical culture — Rs 1000/-
2) Adult Education — Rs 1000
3) Mcl Conference — Rs 500

6) Budgetary and Budgetting

Continuation Sheet No. File No / Current No 1,61 of Typewriting Page

2) The comptroller has pointed out that the service heads expre is on the increase and it is so as shown below:—

	1940-41	1941-42 (revised)	1942-43 (Budget
	Rs	Rs	Rs
Revenue under service heads	20,80,397	20,37,175	23,30,125
Expre under service heads	21,58,906	22,67,862	28,77,367

3) As will be seen from the above figures, the expre is more than the receipts & the deficit is on the increase. Even if the Budget estimates for 42-43, it would go upto more than five lakhs. This is not a healthy financial condition & it is for the MLC to devise ways & means to improve this position.

4) In regard to the collection of arrears of taxes the position has deteriorated during the year 1941-42 as compared with that of 1940-41

Total arrears of all taxes	1940-41	6,12,424	
	1941-42	6,71,145	
Arrears of assessed taxes	1940-41	4,28,714	
	1941-42	4,30,571	

The MLC has to look to the collection of its taxes & it wants to improve its finances & to provide amenities to its citizens on a large scale

WD 1140—GPB—50 000—5-11-42

OFFICE OF THE COMPTROLLER TO THE GOVERNMENT
OF HIS HIGHNESS THE MAHARAJA OF MYSORE

No 121/C-LAD

Bangalore dated 5th September 1942

E one budget file

From

M Shamanna, Esq , M A ,
Offg *Comptroller to the Government of*
His Highness the Maharaja of Mysore
BANGALORE

To

Mel 45-42-1

Narayanaswami Naidu, Esq , B A ,B L ,
Secretary to Government,
Law Department,
B a n g a l o r e

Sir

I have the honour to forward herewith for orders of Government, the Budget Estimates of the Bangalore City Municipality for 1942-43, received with the Municipal Commissioner's letter No A I 644-41 dated 6-8-42, together with a detailed note explaining the modifications made in this office on the basis of the information available from the past actuals and the relative sanctions to items of expenditure so far conveyed Lists showing the alterations effected are also enclosed

2 The Budget Estimates which were due in this office before 15th April 1942 as per Rule 18 of M A (Part II, were received after a delay of 4 months

3 The actual closing balance of the Municipality on 30-6-1942 was Rs 84,950-5-1 as against R 79,009/- assumed by the Municipal Council and the former figure has accordingly been adopted

4 A review of the provisions made by the Municipal Council under Assessed taxes, sale of land and other items of revenue show that the anticipated receipts for the year 1942-43 are abnormally high The prospect of collections with due regard to the present unfavourable conditions and with reference to the percentage of collections in the previous 3 years has been taken as a guide in arriving at the modified provision by this office

5 A sum of Rs 10,46,825/- in the aggregate is proposed to be reduced under "Receipts" for the year 1942-43 on the basis of the actuals of the previous years, the progress of receipts of revenue in the current year and on of certain items having been reduced (Vide Annedure A)

6 Even after reduction by this office of an expenditure to an irreducible minimum, in view of the unavoidable heavy cut on the receipt side, the Budget estimate for 1942-43 will close with a deficit of Rs 1,87,004/- as indicated in Annexure C

7 The Municipal Council has decided to take up 4 big layouts for the present viz , Kalasipalyam, Sunkal Farm, Yankanpalya, Ramakrishna Block and have applied to Government in their letter No A C Dr 178-40-41 dated 10-7-1942 for an advance of Rs 5 lakhs to be granted to the Municipality as a loan at 2½% per annum, repayable out of the proceeds from the prospective sale of these sites on these layouts and have accordingl provided this sum in the Budget in anticipation of Government sanction As no orders of Government have been communicated the provision is deleted

8 The Municipal Council have also proposed to float a loan of Rs 2,00,000/- for meeting the quota of contribution for underground drainage works during the year 1942-43 For the same reason as stated in the previous para, this provision is also deleted

9 Annexure 'C' brings out the summary of receipts and expenditure of the Budget estimates as modified by this office

10 Government have since stopped the payment of Rs 30,000/- per year being the usual subvention to the City Municipality to make up P 4 lakhs due to Government on account of water supply to the City Municipality (vide letter No L 3490 dated 4-11-41) from the Secretary to Government, Law Department, to the Municipal Commissioner) hence the provision of Rs 60,000/- for 1940-41 and 41-42 made by the Municipal Council has been deleted by this office

11 Coming to the question of water supply, Government have not agreed with the Municipal Council to raise the free allowance from 3000 to 4000 gallons, hence the deficiency in Municipal Revenue which the Council had agreed to make up does not arise and the sum of Rs 30,000/- shown as excess water charges on this account on the expenditure side of the Budget Estimate has been deleted

12 The amounts advanced from Loan Funds towards the purchase of meters and layout charges to the extent of Rs 2,27,065/- have yet to be recouped from the normal funds of the Municipality

13 The service head balance of the Municipality continues to be a minus figure and is even larger this year * The Municipal Council has

has not been able to explore ways and means for balancing its budget and has no reserve to fall back upon in times of emergent needs It behoves the Municipal Council to find out immediately methods to augment their resources and to curtail expenditures of an optional nature to an irreducible minimum and to exercise a watchful care on its available avenues of income and outstandings

14 Above all, the Municipal Council has to show better progress under collections of assessed taxes and adequate progress under other heads of revenue also, because the satisfactory collection of the Municipal taxes and dues is the "Sine Qua non" of efficient Municipal administration as observed by Government in their order No L 4663-90/41 117-41-12 dated 21-11-41

I have the honour to be,

—

The President in/ore introducing the Budget observed that the draft budget was being placed before them when the whole world was undergoing a crisis on account of war. Under the peculiar circumstances now existing, it was not possible for them to carry out many improvements If they were unable to provide all/the amenetics required, it was not because they lacked the will or were indifferent, but because the conditions were unfavourable Prices of materials had gone up very high resulting in a heavy expenditure. Inspite of the disadvantages they were labouring under, they had arranged to make provision for more layouts, t ps lavatories, urinals etc., and would do their utmost to give the ratepayer as much relief and comfort as possible under the present conditions.

Coming to the question of layouts, he observed that they had decided to take up four big layouts for the present, viz , Kalasipalyam, Sunkal Farm, Ramakrishna Ashrama and Kanakanapalya, and had decided to ask for a loan from Government for these works. It was better if they reserved at least two of these layouts for the poor to be given on upset price. The other two might be disposed of by public auction.

For A.R.P. measures they had provided a sum of Rs.40,000/- in the budget and if this was found insufficient they should reappropriate from other sources, as it was one of their primary duties to safeguard the lives of the people.

As regards supply of food stuffs etc., he said that they had tried to have one depot for selling foodstuffs, for the actual cost price and if agreed they might open some more depots. To control the prices of these articles, the Govt. had ~~xxxxxxxxx~~ thought of some measures and they should also co-operate with them in this behalf by opening out depots for sugar, kerosene, etc , and the Government were also willing to

give all possible help to the Municipality in this matter.

Coming to the question of relief to the sweepers and scavengers, he said that they were very anxious to give them more facilities like huts, roads and taps. But the present conditions were very unfavourable. They had provided a sum of Rs 11,000/- in the budget for being given as dearness allowance to the employees of the Municipality.

For reading rooms and libraries, they had provided extra amounts and pay enhanced grants to Nakirs and Pandits. More reading rooms were to be opened in the current year.

As regards civic Propoganda work, he said that a sum of Rs 1,500/- had been provided last year, out of which they had purchased a loud speaker set for about Rs.950/- and assured the House that the work of this branch would be taken up very shortly. Next year also a sum of Rs 1,500/- had been provided for this work.

In conclusion, he observed that the draft budget before them might be considered by the House.

Mr. L. S. Raju thanking the President for introducing the budget in such a lucid manner, explaining the general features of the same, observed that the Municipal Council was not an autonomous body having real control over the finances of the Municipality The Budget was framed by persons who had no control over the funds and could be turned down or altered at the will and pleasure of the Government. The Council knew the requirements of the people and it was but right that they should be given full control over funds to be spent in the best manner for the best benefit to the ratepayers Till the Municipal Act was amended giving complete xxxxx power to the Municipal Council over its funds, the framing of the budget was a mere farce, in as much they would not be able to do any good whatsoever to the people.

Coming to the suggestion of the President to reserve

reserve two of the four layouts proposed to be taken up, for the poor on upset price, he said that it was no doubt a good idea, but mere grant of sites on upset price would not be of much benefit, since many of them would not be able to put up houses. He suggested that the Municipality might work out a scheme to construct cheap houses and give them to the deserving poor on hire purchase or other systems

As regards provision for A.R.P. measures, he said that this was a good opportunity for the Municipality to get the best advantage in having a larger number of wells and opening out all the closed wells, and making tanks more useful.

As regards foodstuffs, he said that the high prices were to a large extent due to the dumping of alien element into the city. The large number of military, the camping of war prisoners and the influx of outsiders was mainly responsible in shooting up the prices and difficulty in transport had greatly aggravated the misery. It was high time the Government thought out some way to set right these matters and liberate the civil population from the misery they were undergoing.

Coming to the question of water supply, he said that it was really very deplorable that the Government had not passed orders so far on their recommendation to raise the minimum from 3,000 to 4,000 gallons. There was no need for such a long delay since they had agreed to make up the deficiency and pay to Government for water supplied There was another way out of this tangle and that was by reducing the maximum free supply to a lower figure, they could give more relief to the ~~marginal~~ poor.

At this stage, the President informed the House that he was given to understand that the Government had not agreed with the Council resolution to raise the free allowance to 4,000 gallons and Mr. L. S. Raju continuing his speech said that it was really very regrettable that the Government

Government should have taken up this attitude against their decision. The Council had agreed to bear the burden of the deficiency and the deputation had even assured the Lewan that they would convince the people and levy extra taxation to make up this. Inspite of all this the Government had turned down the resolution and the same attitude would continue to exist unless they got more powers in the matter of the administration of the Municipality.

Mr. L. E. Raju finally said that he hoped that the Government would not have any cuts in the budget framed by them and that they might be able to be of real service to the people inspite of the troubles ahead

Mr C. P. Karasinga Rao speaking next congratulated the President on his introduction of the budget and said that it was more an apology and an excuse rather than proclamation of the things they did or were going to do Since the conditions had greatly changed due to war, there was no possible way to improve the budget But by the spirit of service and by carrying out all the resolutions passed by he , they could still do a lot for the public good even though the means at hand was very meagre. There should be greater co-operation between the Council and the Executive and a spirit of brotherhood should prevail to see that the maximum good was done to the people. The Executive should not feel that they are separate from the Council and both should combine, understand the difficulties of the rate payer and try to give him the relief to their best capacity.

Coming to the question of Elementary Education, he said that because of the new Act, the control over the same had been taken away from them inspite of their strong protests and as people responsible for the welfare of the city, it was their duty to see to the well-being of the school-children. It was very necessary that they brought to the notice of the Government

Government the difficulties felt by t ese children and see that they were given relief, by way of more number of schools, etc.

Regarding the water question, he said that it was really very surprising that Government should h ve taken up this attitude when they h d assured to pay the deficiency. While the sister Municipality at Mysore was as having 4,000 gallons free this Premier Municipality of the State had been denied this. This Municipality was constituted several years back and it had expanded vastly. The Government should not have the same ideas of it and try to have dual control over its administration. They should invest this Municipality with complete powers over its administration and lessen their interferences. They should not condemn the Council without giving a chance to the same to show its mettle.

He next observed that most of the discussions and resolutions looked as though they h d been decided upon outside the Council chambers and that it was better if they had the opinion of the Executive in all matters, which will not be available in all cases on paper, and suggested that matters involving policies might be discussed openly in the Council alone.

Coming to the question of provision for ex ension of maternity benefits, he said that no provision had been made in the budget and that some provision should be made in this respect.

He also said that in cases of fire, the Municipality was helpless and had no fire fighter worth the name and insisted upon one being provided for.

He finally observed that instead of merely inflating the figures under the several heads, it would be very satisfactory if they tried to get the maximum benefit within the limited means in their control.

Mr. V. K. Govindarajulu also congratulated the President and said that there would be no question of any sort of cut at the hands of the Government this time, since they had based their

their figures on the sanctioned figures of last year He also spoke about the necessity for getting complete control of the municipal administration into their hands and said the interference of Government was not healthy and desirable If only the Government gave the Council its quota out of the income that Government was deriving in this City, they would be able to frame the budget better and afford better facilities to the public.

He next spoke about the bad condition of several roads and the unsatisfactory sanitation in several parts of the City and attributed it to short of ~~funds~~ hands.

Regarding Mr. V. N. Narasinga Rao's suggestion that all subjects should be thrashed out in the Council openly, he said that though they arrived at some conclusions in the party meeting, yet they were open for correction or modification and in all matters involving policy, they had them as open subjects.

He next urged that the Government should be requested to sanction the subvention of Rs 30,000/- for the previous as well as the current year, as they were legally entitled to the same and said that it should be shown in the budget.

Mr. W. H. Hanumanthappa next spoke about the helplessness of the Council in administering its finances and said that for doing even small things they had to wait for the sweet will of the Government. The staff, the water, light, underground drainage, education, - all these were under Government control Though the sanitary and engineering departments were considered to be under their control, yet their officers were under Government and so their control in these two also amounted to nothing. Protesting against Government intervention in the framing of budget, he said that when they had framed it after a good deal of thought and of the actual situations and needs of the people, it was not right that the Government who was not in the know of the real state of affairs, should interfere and have

have cuts. He supported Mr. L. S. Raju and said that the Act should be amended to give complete power to the Municipal Council over its administration He also suggested that they might pass a resolution asking Government not to have cuts in the budget to be sent to them, wit out consulting some one from the Council

Asregards the Government Order on water supply, he said that while in all the other cities in India, the people were getting water for a lower rate and had no restriction in its usage, in this City, the rate levied on them was very heavy and the Government was working the entire thing on commercial lines without thinking that it was also their duty to cater to the needs of their citizens.

He next observed that the ornamental lights were of lesser use to the public and might be replaced by goose-neck ones and the Government also should lower the cost of royalty levied on the Municipality The Government was realising a huge sum not less than 20 lakhs of rupees per annum from the City from various sources like income tax, registration fees etc., and should pay some quota to the Municipality since it is the amenities created by the Municipality in the City hat have made the City an attraction to settle down While orginally they were getting 2/3rds from Government, towards Education, Market and Underground drainage, they have been denied the same now. Further in other places all big schemes were spensered by the Governments and they were also giving considerable contribution towards major works. But in this place no such thing was being done If the Government were only to agree to bear half the cost of ater, light etc., then they could give better amenities to the ratepayers and make this City an ideal one. The Government should give up the present close fisted policy and adopt a more liberal one towards this Municipality and then only they could show what they could do in matters of municipal administration.

As regards improvements to t e Old City, it was long neglected matter and deserved immediate attention of the Council. More than half the income the Municipality was deriving from Octroi, tolls, etc., was being paid by the merchants of the Old City and it was but right that it should not be made to sacrifice in the interests of the new extensions. The people were living in deplorable conditions in the Old City and they should first take up their cause and give them relief by removing congestion etc.,

Coming to question of foodstuffs, he said that in the interests of public health, they should enforce Food Adulteration Act more vigourously and side by side, they should also improve the public health by having more number of play-grounds all over the City and suggested necessary provision being made in the budget for this purpose.

As regards affording facilities to the labour classes, he observed that it was impossible for the Municipality to take up the entire burden and the Government and the Mills also must come forward with their contribution for this purpose. He supported the ideas of construction of homes and giving them to the poor on hire purchase system and said that this should be taken up as an annual programme.

He also spoke about the necessity of bathing ghats in all the divisions and said some programme may be drawn up for this.

He finally suggested that all the private cartstands in the City should be taken over by the Municipality and that this would yield a bigger revenue to the Municipality.

Mr. V. Chikkayellappa speaking next said that since they had made separate provision for improving the lot of the harijans in the last year's budget, they were able to give them some amenities and wanted some such provision to be made this year also. He also observed that the condition of the huts in which

the harijans lived was mainly responsible for their illhealth etc., and suggested that the Municipality should arrange to supply mangalore tiles to them free for their houses. He also said that if the Municipality set apart some amount for these peoples the Government might also be requested to come to their rescue.

Mr. T. Gangadharaswamy next observed that there should be better understanding and co-operation between the Executive and the Council. They had appointed Health Staff at a great cost but the work turned out by them was not satisfactory. The roads and drains were not properly maintained and should be paid more attention. He urged about the need for a bathing ghat for his division, and wanted immediate action to be taken in this behalf. He observed that the levy of Additional Education Cess by Government at this critical period was not all right and that it would increase the burden on the ratepayers. He next spoke about the dual control over maternity homes and said that they must have only one master to control them The Municipality should have complete control over the homes and the staff attached to them.

—

Mr. M. H. Hanumanthappa speaking on the Budget observed that no provision had been made in the Budget for the acquisitions already sanctioned by the Council so far, which amounted to nearly 4½ lakhs and wanted a loan to be raised from Government for this purpose. He also said that a sum of Rs.5,20,000/- may be provided for meeting water charges, since this had not been done, and suggested that the allotment of Rs 50,000/- under Education Cess may be reduced to Rs.40,000/ in view of the Educational Cess newly levied.

Mr. V. Venkataswamy Chetty observed that the revenue collections so far were far from satisfactory and said that it was mainly due to the ransfer of the shanbogues from division to division, especially when collection had to be brisk. The shanbhogues transferred to new places would naturally take sometime to understand the local people and conditions and hence they would not be in a position to show good work. The second cause for this fall was that there was very heavy work for each shanbogue. While the City had expanded in population and also in the number of houses and in area, the Municipality was working with the same number of hands as it had some years back, with the result each collector was responsible for nearly 1000 to 2000 houses and also the number of tax inspectors was far less than the number of divisions. He advocated the increase in the number of shanbhogues and wanted every division to have its own inspector. He also stated that there was very little encouragement to these hard working people who were the backbone of the Municipal administration and said that even if they were given potgi as in Revenue Department, they would get better remuneration than what they were actually getting at present. He suggested the revision of their grades of pay also, and hoped that this encouragement, if given, would yield better collections and better work on the part of the staff.

Speaking further, he also attributed the heavy arrears to the delay in deciding all cases of remissions. If the remission cases were decided quickly, most of the items would be removed from the accounts and the amounts would be considerably reduced. In addition to this, all cases which were beyond recovery should be written off, as in C & M Station.

The Commissioner informed the House that he would place proposals for revision of the scale of pay of the collection staff before the Council during July 1942 and the Council may then decide whether to sanction it or not.

Mr. V Venkataswamy Chetty, continuing, said that they had provided for a strong room in the Municipal Treasury last year which had been deleted by Government., and suggested that they should make provision for such a strong room this year.

Speaking next about the Additional Education Cess, he said that the Municipality was given a large sum of money as grants to several educational institutions and this levy of cess was an additional burden on the ratepayer who had already been taxed to utmost capacity. In Mysore, the Municipal Council had protested against this levy and had not taken any action to collect it while here collection had already commenced. This Municipality also should protest very strongly against this levy and see that it is not made applicable to them.

Coming to the question of taps, he said that last year they had made sufficient provision for additional taps but they had not installed all the taps sanctioned by the Council. The Minister had also expressed that it was better they made more provision for additional taps in the Old City and so wanted some more provision to be made for these. He suggested that till all the resolutions of the Council relating to the installation of taps had been fully carried out by the Executive, no member should bring any proposition for such taps in future.

f the amenities the Municipality had ore ted to its residents nd the Goverrment as result of t is, was reapin a huge income from various sources as Income Tax, Registration Fees, etc., and it was but right rd just th t they should increase their rent to the municipality to ake it possible for it to give more amenities.

The Municipality was paying a contribution of Rs.51,185/- towards Elementary Education. In the beginning, it was understood that the Government should pay a quota out of the abkari income they were getting but no amount was being paid to t em and the Government should pay a portion of it to he Municipality. The Municipality was maintaining nearly 12 miles of trunk roads nd apart from a small sum, they were not getting any quota out of the petrol tax the Government was realising.

As regards contribution to the D. Hospital, he said hat while the District Board had refused to pay its quo a, the burden had fallen on them and in he Hospital outsiders were in a large number and it was not right that they should spend money of the rate payers for he maintenance of these outsiders

Regarding the pay of the Municipal Commissioner, he said hat Under section 241 of the Act, the Government h d to bear h lf the cost but the entire amount was being charged to Municipal funds now nd suggested that Government be requested to pay half as per the Act

As regards lighting charges to be paid to Government, he said h t while the same Governme t was showing consideration to ills and fac ories including the Gold Mines by levying a concessional r te, they h d not shown any concession to them even though they were one of the largest consumers He wanted the Government to be requested to reduce these charges.

As regards the realisation by sale of sites, he suggested that a separate account should be maintained for the same and the amounts so realised should not be spent otherwise, but spent solely for the layouts and improvement of the Old City.

As regards the income from manure, he said that the figure they had shown in the budget was far more than what they had actually realised by auction and that the amount will have to be modified.

He opined that the sums shown as realisations from - market and slaughter house gate fee, were rather inflated and should be altered.

He next observed that as no amount was shown as receipts under water charges and sanitary charges on Page 16 and said that the Government ought to give their contribution towards these items as they were doing previously He next referred to the provision of Rs 10,000/- for he n undi road repairs and said that though provision had been made, no repairs had been done so far and wanted the same to be taken up early.

The need for a sanatorium and sufficient lung spaces and play-grounds was both very keenly felt and was very essential from the point of view of public health and with this idea, provision had been made during the last year but the Government deleted the same. He wanted sufficient provision to be made for these items this year also

He next referred to the grievances of the sweepers and scavengers and said that the Council had appointed a Special Committee for this purpose but nothing tangible had been done so far in this direction. He wanted immediate attention to be paid to this all important matter

He finally said that the Government were not just in - turning down their resolution to raise the minimum free allowance of water from 3,000 to 4,000 gallons and that they should request Government to reconsider their decision within sometime failing which they should all resign their membership

Mr. Ismail Ilyari next spoke about the budget and said that during the previous year he had moved certain propositions for acquiring some properties in the Old City for removing congestion, that only a few items had been taken up and the remaining re-

resolutions were still unexecuted. He said that in view of the importance of the Old City, it was but right that they should pay more attention to its improvement and so should make necessary provision for this purpose in this budget.

Mr. [illegible] Iyengar speaking next observed that this was a budget framed within bounds, that they had no freedom to frame it in as much as the Government had powers to interfere at [illegible] stage to reduce or remove any provision they made and that it was very necessary in the interests of Municipal administration that the Act should be modified to reduce this interference. He observed that while their sources of income very few all the other legitimate sources were in the hands of Government with the result that they had to balance their receipts with their expenditure within this limited scope. The work of the Municipality was merely that of a collecting agency and the spending of the amount collected was in the hands of the Government. Government was realising huge incomes from incometax, registration fees, stamp fees and it was but right that they should be paid a quota out of this.

As regards the water charges, he observed that the rates levied were very heavy and the interest charged was also abnormal and said the Government should be requested to reduce the same. So also regarding lighting charges. Unless Government came to their rescue in these matters, it would be very hard for them to administer the Municipality.

He also observed that since their expenditure was growing year by year, it was not desirable that they should try to meet all their needs from the existing income, since it would not be possible and suggested that they should think of other sources of augmenting their incomes. He said that many of houses that had been newly completed were still unassessed, since their completion reports would not come to the knowledge of the Municipality till the owners applied for water connections and that if they only assessed all these houses systematically,

a conservancy.

It is only when the burden and the benefit are correlated that the finance of any concern can be said to be sound. Since the Municipality was creating amenities for the benefit for its people, it was but right that the ratepayers should come to the help of the Municipality by agreeing to share its burden.

The other way by which they could balance their budget would be to get complete control over all the sources of revenue and expenditure. The Government had control over the essential items, viz., water, light, underground drainage, education, etc. and the Municipality was only subordinate to it in these matters and had to act upto their instructions. Unless the Municipality was given complete control over all items and the central control given to it, the present state of affairs would not improve.

The third point to be noticed was the unequal development of extensions. At present, there were many defects in the development of these extensions and these could be remedied by having a Central Improvement Trust which would be responsible for a systematic and uniform development of the City. Since the City was expanding in all directions, it would be better to give separate minor or sub municipalities to each big extension and all the sub municipalities should be under the control of a Central Municipality, which should pay its quota to the sub municipalities. Such a system was available in many of the big cities of in the West and would be advantageous, here also.

Coming to the question of receipts, he said that the arrears were accumulating year by year. A detailed statement of yearwar arrears with details of pendencies would solve this problem of reducing arrears considerably since then they will be in a position to know the reasons and take measures. He opposed the idea of prosecutions for recovery of arrears and said that it would not induce the people to pay up. On the other hand a greater zeal on the part of the collection staff would greatlse reduce the arrears. Instead of putting off taking actir Sahitya

recovery of arrears, if they only took action immediately arrears fell due, then there would not be so much of accumulation.

The existing taxes and rates were capable of revision. Since the amenities were increasing in number, it was but right that there should be a proportionate increase in taxation also. Profession tax as now levied was capable of much improvement and should be brought to a systematic manner. The people also would not grudge paying it since it was an equitable tax and not a burden. He also suggested that a graduated system of taxation might be introduced with advantage here also as in big cities like Madras, Bombay, etc.,

Mr. M. A. Gopalaswamy Iyengar next observed that the following means of augmenting the sources might be followed with great advantage:-

(a) Levy of duty on transfer of properties, etc., in the City.

(b) Registration of marriages and adoptions should be insisted upon and fee levied for such regis rations.

(c) Advertisement Tax should be levied immediately instead of putting it off for one more year as per Government Order.

(d) Levy of betterment value on lands brought under conversion.

(e) Taxing the unearned increment.

(f) Municipalising transport services, opening up of Savings Banks, starting milk supply centres, etc.,

He next referred to some of the omissions in the budget. Necessary provisions for play-grounds, cattle sheds, model firewood and charcoal depots, sweepers huts etc., should be made. Realisation from swiming pool should be shown separately and separate amount to be provided for Education Cess. More number of lights, taps, dustbins, etc., should be provided for.

He also suggested that the idea of constructing cheap model houses and giving them on hire purchase system, may be considered with advantage and necessary provision be made for this and also for Municipal Hand Book, Municipal Conference, Karnataka Sahitya

No. 46/41.

Minutes of the Proceedings of the Adjourned Special Meeting of the City Municipal Council, Bangalore, held on Friday the 26th June, 1942 at 4 P.M. in the Council Chamber of the City Municipal Offices, Bangalore, for consideration of the Budget for 1942-43.

Mr. M.K. Narayana Iyengar, B.A., B.L. speaking on the Budget said that he fully endorsed the views expressed by Mr. M.A. Gopalaswamy Iyengar, M.A., B.L., regarding the ways of increasing the revenues of the Municipality. He next observed that the present system of Shanbogues issuing final receipts for amounts collected was open to grave danger and misuse. In the interests of safety both of the party and of the Municipality, the Shanbogues should be asked to issue temporary receipts only and final receipts should be issued under proper authority by the Office after the amount was taken into account. If this procedure required additional hands, the Council was ready to sanction extra staff.

As regards the arrears, it was very heavy and the figure anticipated under collections was inflated. It would simplyfy matters if year war arrears and collections were shown in the budget. One of the reasons for increase in arrears was one officer having been placed in charge of two offices for a long time, for which Government was also partly responsible.

One feature of the budget was that no provision had been made for taking up new schemes and new capital works but provision had been made only for incomplete works. The closing balance showed a precarious state of affairs and unless the sources of receipts were augmented, there would be great difficulty in balancing the budget and meeting the expenditure. Amount spent on water was more than the realisation under the head and it was better they insisted upon every house having a water tap and should also be more discriminate in installing public taps.

As regards underground drainage, the Municipality was there simply to find funds and had no actual control in the matter

As regards extensions and layouts, whenever they were planned they should include more provision for water, light, underground drainage.

The removal of lights for blackout purposes and for obscuration of lights was not done systematically and resulted in great danger to the public.

There was a long delay in disposing of questions regarding layouts. Whenever possible such delays should be avoided.

As regards playgrounds and open spaces, he suggested that in these days of war conditions, it would be better if they were leased out for growing vegetables etc.

As regards water question, if the Government were trustees of the Municipality, they ought not to take away all the sources of income for themselves.

He finally said that provision for the following items should be made in the budget.

a) Provision for Malleswaram Ladies' Association to be enhanced by Rs.5/- per month, as it was already sanctioned by the Council.

b) So also regarding Seshadripuram Reading Room to be enhanced by Rs.5/- per month as per Council resolution.

c) The sum of Rs.30,000 shown as excess water charges in case the minimum free allowance had been raised from 3,000 to 4,000 gallons, has to be deleted since Government had turned down their proposal.

Mr. H.C. Suryanarayana Rao speaking next on the budget said that the receipts under assessed taxes should be substantially increased by revising the assessment on a better and graduated basis. Many houses had not been assessed and buildings with huge compounds both in the extensions and in the Old City could be asked to pay some portion of the cost of maintaining the roads, since in most cases these roads were mostly used for their use.

Regarding profession tax, he observed that it was not a proper tax at all and so it was better if that was abolished.

As regards water tax, he said that while the realisation to the Municipality was only 4/- per house, the expenditure was

27/- and thus the cost of water supply was actually six times he realisations. The Government ought to realise the condition f the Municipality and come to its rescue early else there was very little hope of its getting over its present difficulties. It was the duty of Government to see t' t every individual gets at least the minimum requirements.

As r rds meters, he observed that the Municipality would get ".3/- for every meter for which it was not entitled. This was one of the unrighteous ways of getting money from the ratepayer. It should not be included in the budget as a source of income at all. This amount should be kept apart and used to clear the debt

's re ards light charges, he said that it was very regrettable that the Government was levying high rates on one of its biggest consumers, while it was showing considerable concession to the other private consumers like the Sirsilla, K.C.P. mines etc. While more self consumption entitled them to a concession, they were not given any rebate for the non-burning of lights during moonlight hours and blackouts.

He next said that the maintenance of cattlepounds was not desirable since they were merely a source of expenditure and did not serve the purpose of reducing the number of stray cattle, as could be seen by the number of cattle let loose.

As regards subvention charges of Rs.50,000/- due from Government, he said that they should not only include this sum but also add last year's 30,000/- and insist upon Government paying the same, as they are legally bound to pay the same.

He suggested that the amount provided for earthing might be utilised for lorries with better advantage.

As regards underground drainage, he said that things were not satisfactory in the department and they might stay further works till the entire question was completely investigated.

Statement showing the particulars regarding the receipts under the Main Items of Revenue in the Bangalore City Municipality for the year 1941-42

Actual Cash balance on 1-7-1942	Rs 84,950	Loan funds 21,780 Municipal Funds Rs 63,170

44

Rs.27/- and thus the cost of water supply was actually six times the realisations. The Government ought to realise the condition of the Municipality and come to its rescue early, else there was very little hope of its getting over its present difficulties. It was the duty of Government to see that every individual gets at least the minimum requirements.

As regards meters, he observed that the Municipality would get Rs.3/- for every meter for which it was not entitled. This was one of the unrighteous ways of getting money from the ratepayer. It should not be included in the budget as a source of income at all. This amount should be kept apart and used to clear the debt

As regards light charges, he said that it was very regrettable that the Government was levying high rates on one of its biggest consumers, while it was showing considerable concession to the other private consumers like the Binny Mills, K.C.P. Mines etc. While increased consumption entitles them to a concession, they were not given any rebate for the non-burning of lights during moonlight hours and blackouts.

He next said that the maintenance of cattlepounds was not desirable since they were merely a source of expenditure and did not serve the purpose of reducing the number of stray cattle, as could be seen by the number of cattle let loose.

As regards subvention charges of Rs.30,000/- due from Government, he said that they should not only include this sum but also add last year's 30,000/- and insist upon Government paying the same, as they are legally bound to pay the same.

He suggested that the amount provided for earthire might be utilised for lorries with better advantage.

As regards underground drainage, he said that things were not satisfactory in the department and they might stay further works till the entire question was completely investigated.

He finally said that it was better the Municipality thought of starting a dairy farm by itself to cater to the needs of the public.

17 V a c a n t.

Before the proceedings of the day began, Mr K. Shamaraja Iyengar referred to the Government Order that it was not possible to enhance the minimum free allowance of water from 3,000 gallons to 4,000 gallons. The Government had not viewed sympat etically their resolution to grant 4,000 gallons and that instead of their resigning one by one, it was better that they came to an unanimous decision and therefore requested the President to call for a special meeting of the council.

The President replying said that Government had merely sent a letter declining to grant the resolution of the council by simply saying "in the interest of the rate payers of the City". He said that he had written a letter asking for the re sons which induced Government to take this decision, that a reply was expected and that it would be reasonable to take a decision in the matter after knowing the points of view of Government in the matter.

Mr N. Keshava Iyengar sp aking on the Budget observed that many outside people had left very good record of the work done by the Deaf and Dumb School, and that it was the only other institution in the State that was doing useful work The provision made therefor was meagre, as it was found necessary to attach a Charka Class also to the Institution He said with great emphasis that a Tuberculosis Sanitorium for Bang lore City was a long felt want because poor people could not go either to Madanapalli or Mysore A provision was made in last year's budget but it was turned down by Government He wanted that some provision should be made therefor this time also. He said that the provision under grants to Reading Rooms should be enhanced by another Rs 4,000/- as already resolved, as there were many more Reading Rooms which were doing good work and deserved recognition. He pointed out that the provision made for Dust bins was meagre and he was informed that dust-bins of the value of Rs.4,000/- had already been purchased and that the provision made was sufficient.

Mr. K. N Ramaswamy congratulating the President and the members of the Managing Committee on the get up of the Budget felt glad that there was no enhancement of taxes nor were additional taxes proposed. He said that a sum of Rs.50,000/- more could be realised by re-assessing the houses, as many houses had been under-assessed. He said that there were more than 15,000 electrical installations and that the Electrical Department was making a income of over six lakhs from these. It would be but right that we requested the Government to contribute something out of this income or in the alternative it would be reasonable to request Government to excuse the entire lighting charges. He thought that the Octroi and Toll Department was not working vigilently and that there was scope for improvement and that a sum of Rs.50,000/- more could be expected. He said that many outsiders had settled down in Bangalore on account of its salubrious climate and enjoyed many amenities afforded by the Municipal Council. Most of them were paying incometax to Government and it was right to ask Government to give a quota of it. Touching upon the working of the Swimming Pool, he said that as it was costing a good deal to the Municipality, it may be safely leased out He said that on account of the roads being used by Military lorries, the roads were in a bad condition. It would cost the Municipality much to repair them and keep them in a fit condition. He therefore suggested that Government be requested to give a subvention for this purpose till at least the war lasts. He said that if the Municipality took up the manufacture of compost, we could make another Rs 10,000/- safely Then, coming to the expenditure side, he said that Government were charging the Binny Mills for electrical energy at .55 annas whereas they were charging the Municipality .6 of an anna. He said that if Government reduced the charges to .5 of an anna, it would save one lakh of rupees to the Municipality.

it would be better.

Continuing he said that Government were charging 4.5% on the capital cost of Thippagondanahalli water works. Government were raising money at 3%. If the rate was reduced to 3 or 3½% there would be a savings of about a lakh of rupees to the Municipality He said that Government were making a profit of 3 lakhs of rupees in this concern and he failed to understand why they turned down the resolution of the Council to increase the minimum free allowance to 4,000 gallons. Speaking about layout of extensions, he said, that only such layouts as are near about the City should be taken up as it would minimise the formation of new roads, etc., and much maintenance cost could be saved He said that it was very common in the Municipality that the estimates invariably doubled or trebled themselves and all this was due to lack of supervision and it would give a handle to the contractors to vary many items in the estimates. Speaking of the underground drainage, he remarked, that it would not work well unless there was plentiful supply of water and without such a supply, all the money sunk for it would be a waste. He referred to the delays in the issue of licenses and said that it would be better if the licensing section worked under the Municipal Engineer. The Municipality had not paid any attention at all for solving the beggar problem and the creation of work houses. He said that these were vital questions and had to be solved early. Concluding, he observed that there were a number of cases of malaria in the city and unless it was checked, the City would lose all its attraction and there may even be fall in revenue.

Mr. T. Gangadharaswamy speaking next observed that the grant in-aid institutions of Unanis and Ayurvedic Pandits were not being often visited by the Health Staff to see that the grants given to them were made use of properly. He pointed out that the slit trenches were all filled, with water and that there was mosquito nuisance breeding He wanted that all these trenches should be

50

be kept clean. He referred to the unsatisfactory way of pitching and wanted that the work should be got done well if necessary by paying higher rates. He referred to the long hours of work of the Octroi staff and he said that if necessary the establishment may be increased in order to carry out the work efficiently. He referred to the Taramandalpet Market and said that having sunk Rs.25,000/- for the construction of the market it was yielding a return of only Rs.300/- and he therefore suggested that the right of collecting fees in the market may be farmed. He said that the Municipality was realising a small sum of Rs.200/- by licensing Hawkers in the City and he suggested that it may be deleted as it was working as a hardship on poor people. He said that Government be requested to give away half of the fines realised on municipal cases. He said that owing to A R.P activities many of the ornamental lights had been provided with shades and the lights, as such, were not serving any purpose, and that therefore they may be got removed and thus the expenditure saved. He complained that sufficient provision had not been made for providing play-grounds in all the divisions. It was useless, he said, to hold the annual Market show and that the provision be deleted and the amount thus released may be made better use of for civic propoganda and the like. Since the control of primary education had been taken away by Government, he said, the amount of Rs.51,185/- provided in the budget may be deleted. He suggested that the Deaf and Dumb School may be shifted to a more central place. He said that the provision for Langharkhana was insufficient and it may be enhanced to at least 4 or 5 thousand, so that every inmate may get a small share. He said that the council had agreed to open more Grain Depots in all the parts of the city and that sufficient provision may be made therefor. Concluding, he said that he had ascertained that the Jutka drivers were demanding

more rates at the railway station and he wanted that one Inspector may be posted for duty thereto control the fares.

Mr. G. Nanjappa speaking next wanted to know why a provision of Rs.10,000/- was made under excess water charges, when the Municipality was already paying for excess water. He wanted that provision may be made for the formation of a burial ground in Mysore Road. He pointed out to the provision of Rs.2,000/- made in the budget for brooms, tools and plants and said that brooms were not provided in sufficient numbers to the sweepers. He said that the Vagrants' Home did not provide sufficient protection to the poor inmates, particularly during the present rainy season. Some attention may be ~~pia~~ paid to it. He also wanted that the toddy shops near the Market and the Bank of Mysore may be shifted to some place out of City Limits. He suggested that more food-stuffs be purchased and more depots be opened for the convenience of the poor.

The meeting then terminated and it was adjourned to Monday the 6th July 1942 at 4 P.M.,

The President informed the House that none of the subjects which had been referred to be taken up by the Council at the Budget meeting were pending and might be disposed of first He also said that some alterations had to be done on the Receipts side and suggested the following changes,

1 A sum of Rs 40,000/- may be provided under C 2 Other Items as realisations under Additional Education Cess

2 The sum of Rs 15,500/- now therein under C 3 Sale of Manure may be reduced to Rs 7000/-

3 The sum of Rs 800/- under C 13, Revenue from Sewage Farm, be increased to Rs 2600/- being the actual bid received

4 A sum of Rs 60,000/- be included in Subvention of water for the last year as well as this year

He further suggested that since the Additional Education Cess had been imperative, the amount provided as Contribution for Elementary Education, viz , Rs 51,185/- may be deleted under Expenditure side and with the above changes before them, they might now proceed with the subjects and propositions before them

Accordingly subjects referred to the Budget Council meeting

were taken up one by one.

No.1 Application from Mr K P V Papanna requesting that he may be given the monthly grant which had been given to his grandfather for running a Vyayam Institute (Managing Committee resolution dated 12-2-1942)

Mr V P Govindarajulu moved that a monthly grant of Rs 10/- may be given to Mr K P V Papanna, Vyayamist, and Mr R Subbanna seconded

Resn:- Approved

No.2. Application from the Director, Karnatak National Institute of Physical Education praying for some liberal grant (Managing Committee dated 12-2-1942)-

Mr V K Govindarajulu moved that in the present condition of the Municipality, it cannot be given

Mr K Keshaviengar said that instead of giving a grant to a private institution, it was better if they created a post of an Instructor to look after the physical development of the children He suggested that a monthly grant of Rs 20/- may be paid to the institution with instructions to look to the physical development of children in some playgrounds for the present

Mr K K Narayana Iyengar seconding the above said that they might give him a monthly grant of Rs 15/-

Mr G Hanjappa opposing it said that the creation of a post was not desirable and to grant this particular institution was also not fair, since there were many such institutions and ' gymkhanas' in the City which were also doing good work and deserved encouragement

Mr K Keshaviengar said that he did not want a post to be created but what he wanted was that this Director may be paid some monthly grant with instructions to train children in one or two municipal playgrounds but since there was no unanimous decision to grant the prayer of the applicant, he would not press his proposition now, and that the Director might be requested to take up some Municipal playground and train children there and show to the Municipality what he could do in such matters and then, if he applied for grant, his case may be taken up then

Resn:- Not necessary for the present

No 3 Application from the President, Bangalore Dairy Cattle Society, requesting for a monthly grant of Rs 30/- (Managing Committee dated 9-1-42)

Resn:- Cannot be granted

No 4 Application from Hajia Mohamad, Benki Nawab Street, praying for a monthly grant (Managing Committee dated 6-4-42).

Resn:- Cannot be granted

No 5 Application from the Honorary Secretary, Labourers' Welfare League, praying that the monthly grant of Rs 10/- to the Institution be raised to Rs 30/- per month (Managing Committee dated 6-4-42)

Resn:- Cannot be granted

No 6 Tuberculosis Survey of the Bangalore City (Managing Committee dated 9-3-42)

Mr V.I Govindarajulu moved that a sum of Rs 1000/-

sum of Rs 1000/- may be provided for Tuberculosis Survey and R Subbanna seconded

Resn:- Approved

9.7 In the matter of subscribing for ' Jyothy ' a Kannada Weekly, for all the four municipal Reading Rooms (Council Resolution dated 19-4-47)

Resn:- Not necessary since the paper is non-existing now

No.8 In the matter of leasing out the right of collecting taxes except of shops in Tarumandalpet Market (Council Resolution dated 31-10-41)

Resn Mr V I Govindarajulu moved that it is not possible to consider it and Mr V Venkatanarayana Chetty seconded it and Mr R Subbanna supported it

Resn:- Not possible

No 9 In the matter of setting apart a sum of Rs 20,000/- for housing and maintaining the destitute orphans and cripples (Council Resolution dated 20-4-47).

Mr V.K Govindarajulu moved that this need not be considered by the Council as there was a move on the part of the Government in this matter

Mr R Subbanna seconded it

Resn:- Not necessary-

Then the following subjects passed by the Council and for which provision had to be made were taken up

No.1 Rs 5000/- under A' (8) towards enhancement of the pay of the peons and the pay of the Personal Clerk to the President

Resn:- Sanctioned with the observation that it includes the cost of an assistant to the Council Clerk, revision of scale of pay of peons, Special Auditor and additional establishment

No.2. Rs 500/- under A' (b) towards Conveyance Fee Allowance for C I.C Meetings

Resn:- Sanctioned

No.3 Rs 40,000/- to be taken as receipts under Education Cess under C' Other Items and the same sum taken under F (1) (a) instead of Rs 51,185/- now provided

Mr V I Govindarajulu moved that it may be approved and Mr H A Gopalaswami Iyengar seconding the same said that since the Municipality was a mere collecting agency deriving no material benefit from out of this cess, they ought to claim collection charges and the same may be deducted while paying the Government, the cess collected

Mr G Ranjappa opposed the recovery of the collection charges and said that since the amount was meant for educating their children, it was not right on their part to recover collecting charges

Resn:- Proposition of Mr V K Govindarajulu is approved and the collection charges may be deducted out of the Cess collected.

55

No.4. Rs 3000/- under H 3 (b) towards contribution for Deep Therap

Rest:- May be approved

No.5 Rs 100/- under H (e)(8) towards grant to Lalitha Kala S aln

Rest:- May be approved

No.6 The amount of Rs 3480/- under H 3 (e)(1) to be raised to Rs 4080/- towards extra cost of the additional Lady Doctor

Rest:- May be approved

No.7 The sum of Rs 360/- under I 3 (f) Veterinary Hospital, be sanctioned t Rs 540/- on account of enhanced compensation to be paid for Post Morten Room

Rest:- May be approved.

Mr Ram Lal Thiwari observed that he had sent in a propositio to enhance the grant to Hakim Mohamed Hussain of Ramasingpet and wanted necessary provision to be made in the budget The Presiden informed the Member that if the Council sanctioned the proposition, then they could provide the amount out of the increased allotment under Grants

At this stage, the Health Officer brought to the notice of the House that the Council had sanctioned the purchase of pumps for removing percolation water in the underground drainage and that since the year had come to a close they could not do it and wanted the provision under Drainage Accessories on Page P4 to be increased by 2000/- to enable the office to make the purchase this year

Mr W H Hanumanthappa observed that when the entire responsibility of laying the underground drainage was on Government, there was no meaning in the Municipality taking steps to maintain the same, till it was completely laid out and handed over to it in a completed form He also observed that in all future matters relating to the repairs or maintainence of the underground drainage, the responsibility should vest with the department and not with them. The cost may be charged to the estimates He then moved that " the special Underground Drainage Officer be entrusted with the maintennance of the drainage connections and the cost debited to the original estimate until the completion of the scheme"

Mr G Nanjappa seconded the above and said that the word

56

rd ' house ' may be inserted between ' Drainage ' and nnections' and this was accepted by the mover

Mr K.I Narayana Iyengar o posed it and said that by doing they would be leaving the e tire control in the hands of the partment and will have no say in the matter Fu ther they ght also claim maintenance charges and they would be forced pay the same

Mr K. Lenavienger also o posed and said that there was any ing to give up control over this matter when they h d spent ch large amounts on the scheme and that such shirking of res- nsibility was not proper on their part Fu th r there w was savings even if the new maintenance w s handed over to the partment

Mr V P Govindarajulu observed that they might make a provisi pvision of Rs 4000/- under Drainage Accessories and then write Government to debit the same to the esti ates as per suggestion Mr W.H.Hanumanthappa so that if they did not approve of it, they ght at least not go without it

Mr K K.Narayana Iyengar supported the above idea

The President said that the provision may be increased to 5000/- and the other suggestion of Mr W H Hanumanthappa ght be considered by the Managing Committee

The suggestion of the President was approved

Then Mr A Gopalswami Iyengar moved the following positions,-

1 A sum of Rs 3000/- may be provided for improving the lot of sweepers and scavengers

Mr W H Hanumanthappa seconded

Resn:- Approved

2 A sum of Rs 500/- may be provided for holding a Municipal Conference.

Mr V P Govindarajulu s conding it said that the amount may be raised to Rs 500/-

Mr K.A Go, alswami Iyengar accepted the amendment and then the proposition w s approved as amended

3 A sum of Rs 100/- may be provided as grant to the Kannada Sahitya Parishat

Mr W H Hanumanthappa seconded it

Resn:- Approved.

57

No.4 A sum of Rs 2000/- be provided for starting a Municipal Savings Bank

Mr V K Govindarajulu seconded it

Resn:- Approved

No.5 A sum of Rs 2000/- may be provided for publication of the Municipal Hand Book and Office Manual

Mr V. K Govindarajulu seconded the above

Resn:- Approved

Then Mr G Ranjappa moved the following propositions,

No.1 A sum of Rs 2000/- be provided for the improvement of the Vagrants' Home in 2nd Division

Mr V K Govindarajulu seconded it

Resn:- Approved

No.2 A sum of Rs 10,000/- be provided for a burial ground in Mysore Road

Mr V K.Govindarajulu seconded it

Resn:- Approved

No.3 A sum of Rs 10,000/- be provided for children's playgrounds

Mr V K Govindarajulu seconded it

Resn:- Approved

No.4 Rs 5000/- be provided for Khadi Industry in the City

Resn:- Approved

Mr V K Govindarajulu moved the following propositions,-

No 1 Enhance the amounts under Grants to Reading Rooms from Rs 1080/- to Rs 5030/ as recommended by the Reading Room Committee and sanctioned by the Council, to pay enhanced grants to the Reading Rooms sanctioned by the Council

Resn:- Approved

No 2 A sum of Rs 600/- may be provided for lunch to the Municipal Councillors

Resn:- Approved

Then Mr R Subbanna moved the following propositions,-

No.1 A sum of Rs 10,000/- be provided for extending Hanumanthapur burial ground

Resn:- Approved

No.2 A sum of Rs 15,000/- may be provided for improving the Old City

"There was some opposition to the the ground that there was not sufficie to art separately for this

When it was put to vote,

it was lost

58

Mr V H.Hanumanthappa demanded poll and Mr V Venkatswamy Chetty seconded

The following voted for,-

Messrs R. Subbanna, V. Venkataswamy Chetty, N Kesaviengar, A R A Basith, K Shamaraja Iyengar, V H Hanumanthappa and V Chikkayelleppa.

The following voted against,-

Messrs Ramalal Thiwari, T Gangadharaswami, R A Gopalswami Iyengar H K Narayana Iyengar, B R Honnappa, P Gangaiah, P N Ramaswami and G Manjappa

The result of poll was 7 For and 8 against

Resn:- The proposition was lost

Then Mr T Gangadharaswami moved the following propositions;-

No.1 The sum of Rs 200/- shown as realisations under Hawkers' and Barbers' license fees may be deleted, since it is not justifiable to recover any fee from these people who hardly make a living out of this trade

Mr Ramalal Thiwari seconded the above

Mr V.K Govindaraju supporting it said that a sum of 50/- may be deleted as the realisations under Hawkers' fees

The President said that they had hoped legalised this levy by bye-laws and that the present proposition would be ineffective unless the bye-laws were altered and so the proposition was out of order

No 2. The sum of Rs 2500/- for Langarkhana Doles may be increased to Rs 4000/-

Mr G. Manjappa seconded it and Mr V Venkataswami Chetty opposing it said that the amount could be better spent since it was not being done properly.

Mr K. Shamaraja Iyengar also supported Mr T Gangadharaswamy

Then the proposition of Mr T Gangadharaswami was approved.

No.3 The sum of Rs 750/- for distribution of clothes in Langar-Khana may be increased to Rs 1250/- since the prices of cloth have gone up and since the present provision would be not suffice to provide clothes to all

Mr K Shamaraja Iyengar seconded the above and it was approved

Then the propositions of Mr Ramalal Thiwari were taken up

Mr Ramalal Thiwari said that the sum of Rs 60,000/- shown

under Layouts should be entirely spent for the improvement of the Old City and suggested the following improvements to be taken up out of this amount as on,-

a) Acquisition of sanitary and properties behind Mr Bhamanna's bungalo in Sultanpet There was a well there which would be very helpful in these days and in case of emergency Removal of congestion there would certainly improve the locality

b) Acquisition of properties at the junction of Akkipet and Sultanpet Roads, so widen the road there, since it was too narrow and was dangerous to traffic

c) Improvement of Puttanna Lane

d). Improvement to the Akkipet Storm Water drain from Taluk Cutcherry Road to the turning at Bhamanna Murthy Lane

While moving the above, Mr Ramalal Dhiwari said that he had moved such a resolution last year also but to no effect The major portion of the income to the Municipality was from Old City and it was but right that they should improve the same If the improvement question was merged in the City Improvement Works, nothing would be possible to do and so specific resolution was necessary to see that something at least was done.

Mr [illegible] Rangaswamy seconded the above

Mr G Nanjappa supporting it said that it might not be possible to take the entire amount for the above works nor will the amount suffice Since the acquisition of properties near Bhamanna's bungalow was very necessary, they might provide a sum of Rs 10,000/- for the purpose, The other items may be taken up along with C.I Works

Mr T Bhamanna Iyengar also supported the above and said that the amount under C I. Works may be reduced by Rs 12,000/- for acquisition of properties near Bhamanna's bungalow

Mr N Keshaviengar also supported the above.

Mr Ramalal Dhiwari said that in view of the discussion that took place in the Council, he would withdraw all his suggestions except acquisition of properties near Bhamanna's bungalow, for which they might make a provision of Rs 10,000/-

RESOLVED:- A sum of Rs 10,000/- be provided for the acquisition of properties near Bhamanna's bungalow

At this stage, Mr K.T.Ramaswamy moved that a sum of Rs 10,000/- be provided for being given as grants for several

several garadinance in the City Put there was much opposition to the above and when put to vote, it was lost, 4 voting For and 6 Against

Mr K. Shamanna Iyenger then moved the following propositions

No.1 The sum of Rs 2,40,000/- under Income from Taxes etc , may be raised to Rs 2,60,000/- since there were many new houses coming up and many houses had to be assessed There was some discussion re the same and when put to vote, was lost, 3 voting For and 4 Against

No.2. The sum of Rs 20,000/- shown under Income from Profession Tax be raised by Rs 5000/- since with a little more zeal on the part of the collection staff, they could easily get this amount

When this was put to vote, it was passed, 5 voting For and 3 against

No 3 A sum of Rs 3000/- be provided for a Strong Room in the Municipal Treasury

Since there was some doubt re the possibility of having a strong room for this amount, it was not passed

No.4 A sum of Rs 500/-) be provided for entertainment of six additional shanbogues

Post- Approved

Minutes of the Proceedings of the Adjourned Special Meeting of the City Municipal Council, Bangalore, held on Tuesday the 28th July 1942 at 5.30 P.M. in the Council Chamber of the City Municipal Offices, Bangalore for final consideration of the Budget.

Some of the Members observed that since they were not in possession of copies of the budget as corrected in accordance with the Council resolutions, they were not in a position to follow the same and give their consent to the acceptance of the Budget. So they said that the meeting may be postponed and in the meantime, they might be supplied with copies of the modifications to be made in the Budget as per Council resolutions.

Mr. V.P. Govindarajulu moved that the meeting may be postponed to a later date and in the meantime, they may all be supplied with the correction slips.

Mr. H.R. Guruv Reddy seconded the above deferring motion.

Mr. L.S. Raju supported it and said that before the House was adjourned, he would move the following resolution with the permission of the House. The House having agreed to it, he moved as follows:- 'Resolved that a sum of Rs.21,780/- being the balance under Loan Funds be shown under 1 Public Debt towards expenditure under Loan Funds'.

Mr. M.A. Gopalaswami Iyengar seconded the above and it was approved by the House.

Then the deferring motion of Mr. V.P. Govindarajulu was passed.

Sd. K. Hanumanthaiya,

Mr. W H Hanumanthappa wanted to know the details of works, for which Rs 21,000/- and odd provided under Public Debt Loan Fund orks (Vide page 2) was meant and - he was informed that Rs 1,000/- and odd had to be paid towards bills relating to restaurant, Rs 2,000/- and odd for extension of the Municipal Offices and Rs 3,000/- for payment of the bills of the Bus stand and the balance to be allotted for whatever works the Council might decide

Mr R Subbanna wanted to know the details of the original works for which Rs.30,000/- was allotted He was informed by the Commissioner that when the allocation list would be placed before the Council, the desired changes might be effected

Mr. Ramlal Thiwari stated that he brought a proposition to allot Rs 60,000/- for improvement of his division, etc , whereas he found in the budget that only a sum of Rs 12,000/- was provided and wanted the President to explain clearly as to why the balance of Rs.48,000/- was not at all included If however any amendment to his proposition was brought in the Council, he requested the President to inform him when such an amendment was moved The President replying, said that whatever resolutions were passed in the Council - were incorporated in the final budget and he had nothing to say further

Explaining the situation to the House, the Engineer said that Mr Ramlal Thiwari, no doubt, wanted certain items to be included in the budget for provision of some latrines for his division, acquisition of certain properties and removal of conjestion, but when Mr G Nanjappa suggested that the works might be taken up in stages, Mr. Thiwari - agreed for the same

At this stage, Mr. Thiwari left the Council Hall, -

64

saying "shall I consider it as an autocratic party"?

Mr M.A. Gopalaswamy Iyengar brought to the notice of the Council, that a sum of Rs 3,000/- for Sweepers and Scavangers welfare measure, was included under City Improvement works, which was not in order. He suggested that it should be included under E2 (2) and requested that this amendment might be made Mr. K Shamaraja Iyengar said that with this amendment, the budget might be approved

Mr. M K. Narayana Iyengar requested that in the light of the resolutions already passed regarding enhancement of grants to the Reading Room, details of such grants might be furnished as otherwise, he was afraid that the Government might turn down the proposal as they did in the previous year Since a resolution had already been passed to the extent of Rs 1,000/- he thought that details for this sum at least might be furnished.

Mr W H Hanumanthappa proposed that the budget might be accepted as modified Mr M K Narayana Iyengar seconded the same and it was passed by the House unanimously

Sd/- K Hanumanthaiya,
Hon President.

non-motor vehicles is likely to increase bringing in to the Municipality

Remarks of the Municipal Commissioner, on the budget estimates of the Bangalore City Municipality, for the year 1942-43, as required, in Law Secretary's Letter No L 4326/ M1 45-32 dated 25-10-1942

Receipts

A Municipal Rates & Taxes

1 Octroi - The income under this head during the ~~years~~ past 3 years was as noted hereunder -

1939-40	Rs 2,67,813
1940-41	3,40,190
1941-42	3,65,770

Increase of decrease over the figures of the Audit Office

The above figures show that the income under Octroi is on the increase by more than 25,000/- year by year Owing to the present international situation, the usual increase which could have been anticipated under normal circumstances, may also be not taken into consideration - Further a margin of about Rs 35,000/- may be allowed towards fall in revenue on account of war condition as compared with the income for the year 1941-42 As such, the income under this head may be taken at Rs 3,30,000/ -

Rs 30,000/-

as against Rs 3,00,000/- allowed by the Audit Office

A3 - Taxes on vehicles & Animals -

The receipts under this head during the past 3 years were as noted hereunder -

1939-40	58,602
1940-41	60,192
1941-42	53,830

Owing to decrease in traffic by means of Motor Vehicles on account of war conditions, the traffic by means of non-motor vehicles is likely to increase bringing in additional income under this head to the Municipality As such, the Departmental collections may not be less than during the previous year, i e , Rs 53,830 Besides, the arrears of vehicle tax compensation due by Government for the 3 half years from Jan ,1941 to June 1942 amount to Rs 31,536/- at Rs 10,512 per half year ~~As such~~, the receipts under this head may be taken

Plus 25,366/- to be Rs 85,366 (5,3830 plus 31,536)

A4, Profession Tax - The Audit Office has anticipated a realization of Rs 20,000/- out of the demand for the year 1942 (27,000/- and odd) Out of the arrears of Rs 32,773/- outstanding at the beginning of the year 1942-43, at least a sum of Rs 10,000/- may be anticipated to be collected So, the receipt under this head may be

Plus 10,000/- taken to be Rs 30,000/-

A5, Tolls & ferries - In the provision of Rs 55,000/- made by the Council and allowed by the Audit Office, under this head, only a sum of Rs 8,925/- being the compensation payable by the Government for the half year ending with June 1941 and December 1941 have been included The said compensation for the half year ending with June 1942 (Rs 4,500/- in round figures) has also to be paid by Govt during the year 1942-43 So, the realization under this

Plus 4,500/- head may be taken to be 59,500/- (55,000/- plus 4,500/-)

A6 Water rate on Govt Buildings - The sum of Rs 17,825/- now provided in the Budget relates to the water rate payable on Government Building for the year 1942-43 A sum of Rs 16,542/- due for the year 1941-42 was not paid before the close of the year 1941-42 The said sum also had to be paid during the year 1942-43 As such, the receipts under this head may be raised to Rs 34,367/-

Plus 16,542/- (17,825/- plus 16,542/-)

B Realizations under special Acts -

4 Mileage cess - This amount is being paid by Govt quarterly at the rate of Rs 2,000/- approximately The amount due for the ~~four~~ two quarters from Oct ,1941 to June 194 were outstanding payment at the beginning of the year 1942- The dues for the first quarter of the current year will be got adjusted before 30-6-1942 As such, the realizations

realizations under this head, may be taken to be -

us 3,000/- Rs 10,000/- (2,000/- X 5)

C Revenue derived from Municipal property and powers apart from taxation - A sum of Rs 73,800/- has been realised under this head during the months of July, Aug & Sept ,1942 On 1-10-1942 a sum of Rs 26,380/- was outstanding recovery Action is being taken to sell in public auction very early sites in the following localities which are expected to fetch an income of about 2,63,000/-

23 sites in Seshadripuram Extension	1,15,000 /-
8 sites in Subedar Chatram "	48,000/-
80 sites in Narasimharaja Colony and near Sadasivah Mutt in Gandhinagar	1,00,000/-
Total	2,63,000/-

Taking all these facts into consideration, the receipts under

2,00,000/- this head may be taken to be Rs 3,00,000/-

D Grants& Contributions from Govt - In the circumstances explained in the enclosed note,as approved by the Council the Government may be pleased to grant a sum of at least Rs 40,000/- to meet expenditure towards payment of Dearness

40,000/- Allowance to the Municipal Gangmen, Sweepers & Scavangers

F Public Debt - As directed in Government Order No L 3422-26/Ml 90-41-4 dated 1-11-1941, the first stage in the Bangalore City drainage work has to be completed by the end of the year 1942-43, at a total cost of about - Rs 20,00,000/-, the same being met in equal proportions by Government and the Municipality Towards full payment of its quota of contribution for this work, the Government have provided 3½ lakhs of rupees in the current year's State Budget The Municipality, has to pay 2 lakhs of rupees towards full payment of its quota of contribution It cannot be paid out of the normal funds of the Municipality As such, a loan of 2 lakhs of rupees may be sanctioned - subject to the conditions specified in this Office letter No A1-1031-38 dated 10-8-1942, as resolved by the Council

75

No provision towards payment of principal and interest in this behalf is necessary in the Budget for the year 1942-43, as the same will have to be made in the Budget for the year 1943-44 Plus 2,00,000/-

The question of raising a loan of 2 lakhs of rupees for lay-out purposes as required in Law Secretary's Letter No L 2489 --- dated 31st August '42, is under t h e consideration of the Council Needful action will be - taken after the matter is decided by the Council In the meanwhile, it does not appear to be necessary to take into consideration this subject with the budget estimates for the year 1942-43, as it seems desirable to keep the amount of loan to be sanctioned by Government as a separate fund, for lay-out purposes, maintaining pro-rata accounts in respect of each lay-out, The realizations from the sale of sites will be credited to the same fund to repay the loan to be sanctioned by Government

Expenditure - A1, General Administration - ~~x2~~

Note on the modifications made in the Draft Budget Estimates of the Bangalore City Municipality for the year 1942-43

	Receipts	Provision
A	Municipal Rates & Taxes	
	2) Taxes on buildings & lands	Rs 2,40,000
	6) Water tax on Govt Buildings	2,33,825
	7) Lighting tax	48,000
	8) Sanitary Tax	96,000
		₹ 6,17,825

	Demand	Collection	Percentage
1939-40	9,22,512	4,92,514	53 3 %
1940-41	9,34,472	5,05,758	54 1 %
1941-42	9,32,828	5,50,000	58 9 %
1942-43	9,82,828	6,17,825	67 9 % (anticipated)

The budget programme of the year 1942-43 anticipates a total income of ₹ 6,17,825/- (the percentage of collection being 67 9) under the assessed taxes as against the actual collection of Rs 4,96,023/- during 1941-42, the revised and sanctioned provisions being Rs 5,50,000/- and Rs 5,97,200/- respectively for the year 1941-42

The Municipal Council expect a revenue of 67 9 % of the total demand for the year of budget, when the percentage of collections did not exceed 58 9 % in the previous years as detailed in the margin

There are indications of an improvement in the collections as seen from the percentages of the three previous years but the expectation of a collection of 67 9 per cent appears to be sanguine and a percentage of 60 per cent may be taken Accordingly the budget may be taken at ₹ 5,37,000/-

Reduction/ R. 80,825/-

4) Profession tax

Provision R. 25,000/-

The actual collections during the year 1941-42 are ₹ 18,476-12-0

P T O

82

as against Rs 20,000/- and R 15,000/- under sanctioned and revised figure.

Out of the total demand of R 27,000/- and odd for the year 1942-43, the Municipality hope. to collect Rs 25,000/- which appear. rather too hopeful and the collections are therefore taken at Rs 20,000/- the amount sanctioned in budget and revised figures for 1941-42

Reduction Rs 5,000/-

1) Octroi Provision R 3,00,000/-

Actual receipts for	41-42	Rs 3,62,257-14-5
Revised "	41-42	3,50,000- 0-0
Budget "	41-42	3,50,000- 0-0

Though the revenue has been so far on the increase from year to year (as detailed in the margin)

1939-40	R 2,67,813-13-2
1940-41	3,40,190-13-2
1941-42	3,62,257-14-5

in view of the note by the Managing Committee, the receipts for the coming year may be taken as R 3,00,000/-

3) Taxes on vehicles and animals Provision R 70,000/-

Against the anticipated collections of R 70,000/- of the Council, a sum of P 60,000/- can be expected, which is based on the actuals of the previous years (As detailed in the margin)

1939-40	Rs 58,602/-
1940-41	Rs 60,142/-
1941-42	Rs 53,830

Reduction P 10,000/-

Realisation under special Act.

3 Motor Service Tax Provision R 32,000/-

No information regarding the amount fixed and credited to the Municipa ity during 1940-41 and 1941-42 has been received so far - the provison of Rs 32,000/- made by the Council,is, however, increased by Rs 23,000/- by this office on the above account making up a total of R 55,000/- for the 2 years a.

1940-41	R 30,000/-
1941-42	25,000/-
	55,000/-

as noted in the margin The Municipality should arrange to get the arrears credited to its fund atleast during the course of the year

Increase Rs 23,000/-

C Revenue derived from Municipal property and powers apart from taxation

Rent of buildings Provision Rs 35,000/-

Actuals as per	41-42	Rs 16,621-13-1
Revised "	41-42	35,000/-
Budget "	41-42	35,000/-

The provision made is in view of the anticipated income out of Bus Stand, Restaurant near the Municipal Office and other Municipal Buildings The correct demand, collection and balance account relating to this item of revenue was not available to verify how the sum of Rs 35,000/- is provided for in the budget In view of the average of the actual income in the past 3 years, the provision for the year 1942-43 cannot be estimated at more than R 26,000/- which corresponds to the average of the previous 3 years

Reduction R 9,000/-

2 Sale of Land Provision Rs 3,00,000/-

Actuals for	41-42	Rs 3,48,095-10-2
Revised "	41-42	1,75,000/-
Budget	41-42	1,00,000/-

The Municipal Council anticipates an income of Rs 3,00,000/- during 1942-43 from the sale of the sites already formed and to be formed on the new layout proposed to be taken during 1942-43 by taking a loan from Government

From the available records it is seen that only two sites in Gandhi Nagar are remaining unsold and 12 more sites have to be formed in that locality The amount that can be realised from the sale of all these 14 sites cannot be estimated at more than R 1,00,000/-

Reduction Rs 2,00,000/-

P T O

84

Rent of shops in the General Vegetable Market

Provision R 80,000/-

Actuals for	41-42	Rs 73,059-11-6
Revised '	41-42	Rs 72,500- 0-0
Budget "	41-42	72,500- 0-0

The increased provision is stated to have been based on the expected income resulting on the enhancement of rent of shops located in the main portion of the building and taking this fact also into consideration (viz Rs 1,720/- a year) the provision for the year 1942-43 can be fixed at Rs 75,000/- only

Reduction R 5,000/-

D Grants and contributions

Provision R 60,000/-

The yearly subvention for water works to the extent of R. 30,000/- that was being provided for under "30 Grants for Public Improvements" in the sanctioned State Budget of the previous years has now been discontinued as per orders coveyed by Government in their letter No L 3490 dated 4-11-1941, hence the provision of R. 60,000/- provided by the Council on the receipt side has been deleted

Reduction R 60,000/-

F Public Debts

1	Underground drainage	Provision R. 2,00,000/-
2	Loans for layout	5,00,000/-

The provision made by the Municipal Council under the above heads on the receipt side has been proposed to be deleted in view of the reasons stated in paras 8 and 9 of the covering letter to this note

Reduction Rs 7,00,000/-

EXPENDITURE

I A General Administration

a) (2)8 Revision of pay and enhancement Provision Rs.

The provision consists of pay of some of the unsanctioned p in addition to the pay

in addition to the pay and allowance of the post of the special accountant from the Comptroller's Office sanctioned by Government for 6 months in their Order No L 11275/M1 10-41-176 dated 28-5-1942 for verification of the debt head balances of the Municipality

But the provision of Rs 660/- being the pay and allowance of the special accountant has been retained and the rest deleted for want of sanction of Government

Reduction Rs 4,340/-

Bicycle badges Provision P ,2700/-

It is observed that bills aggregating to Rs 1,527/- pertaining to 41-42 have also to be paid The provision has therefore been increased to this extent

Increase Rs 1,527/-

C City Improvement Works Provision R 40,000/-

3 Minor works - For want of details of funds required for incomplete works and fresh works, the provision is reduced to a lumpsum of Rs 25,000/-

Reduction R 15,000/-

4 Major works - Provision Rs 1,19,000/-

Items 1 and 2 in the appended statement are the only 2 works that have been sanctioned while works (items 3 and 4) are taken up and are in progress Provision is made for these 4 works and incomplete works of last year upto the extent of R 60,000/-

Reduction 59,000/-

D Municipal Engineering works Provision R 5,00,000/-

Compensation and removal of congestion and pay of layout e tabli hment

An over-liberal provi ion has been made by the Council the expectation that Government would sanction the loan of 5,00000/-, applied for by the Municipality for meeting the

P T O

the expenditure in connection with the formation of new extensions during 1942-43 For want of sanction of Government to the loan as well as to the scheme of new extensions, the provision has to be wholly deleted To meet any unforeseen items of compensation in respect of acquisitions that may be approved by Government during the year, a lump provision of Rs 30,000/- is allowed and the provision made under the head suitably reduced

Reduction Rs 4,70,000/-

E Public Health and Convenience Provision Rs 804/-

Additional Food Analyst and Peon As orders of Government have not yet been received for the entertainment of this additional staff the provision has been deleted

Reduction Rs 804/-

Excess Water Charges on account of restoring the minimum free allowance from 3000 to 4000 gallons

Provision Rs 30,000/-

As Government did not approve the proposal of the Council to the restoration of the full allowance, the necessity of making any provision to make up the deficiency on the above account and on the part of the Municipality does not arise, hence the full provision of Rs 30,000/- made on that account has been deleted

Reduction Rs 30,000/-

Public Debt Repayment of Loan (Principal taken out for layouts)

Provision Rs 1,50,000/-

No provision has been made under the receipt side against the head "Loans for Layouts" (Rs 5,00,000/-) and besides the provision of Rs 1,50,000/- now made by the Council on the expenditure side of the Budget for the part re-payment of the loan in question has been proposed to be deleted for want of sanction of Government to the loan

Reduction Rs 1,50,000/-

87

In order to provide for funds for the works already in progress and to meet the urgent demands the items of expenditure of an optional nature and unsanctioned items have been proposed to be deleted to the extent noted against each (Vide Annexure B)
